

## BARBED RAZOR CUT

---

Barbed razor cut wire is a mild steel, medium carbon wire with spikes. It is mainly used on access-controlled applications, such as security gates. Material is available in concertina, flat wrap and unclipped coils.

### Concertina Coils – available diameters:

Height (mm)	Metres per roll	Mass per roll (kg)
450	10	7.5
730	10	10.5
980	10	13.5

### Flat Wrap Coils – available diameters:

Height (mm)	Metres per roll	Mass per roll (kg)
500	15	5.4
700	15	7.1
900	15	8.3

### Unclipped Coils – available diameters:

Height (mm)	Metres per roll	Mass per roll (kg)
200	10	9.8
