

**STAIRTREADS**

A stairtread is one of the most widely used steel grating systems. Because stairtreads are non-slip, they can be used on stairwells in factories to assist with safety, as well as in playgrounds on ladders, steps and other related applications.

Material is available in uncoated and galvanised finish.

**Product application**

Typical applications for stairtreads are stairways and stairwells in emergency exits.

**Specifications**

Stairtread lengths (mm)	Stairtread widths (mm)		Bearer Bar (mm)
	85 and 25; 165 to 285		
Side plate size			
Up to & including 750	80 x 4.5	60 x 3	86
751 - 1000	80 x 4.5	60 x 3	100
1001 - 1200	80 x 4.5	80 x 4.5	125

**Stock sizes**

Size (mm)	Uncoated mass per stairtread (kg)	Galvanised mass per stairtread (kg)
600 x 205	3.99	4.23
600 x 245	4.62	4.9
750 x 205	4.84	5.13
750 x 245	5.6	5.94
900 x 245	7.32	7.76
1000 x 285	9.38	9.94
